Kapildeo Gurudeo Patil kapildeopatil756@gmail.com
Linux Administrator **Contact – 7218241371**

Professional Experience: 4.8
SVN (NTPC-IBM) – Hyderabad
17 July 2025 – present

● *Managed installation, configuration and maintenance of Linux servers.*

● *Monitor CPU, RAM, Memory, Connectivity, server Health check etc.*

● *User Management, permissions, ownership, Disk Management.*

● *Automated routine tasks using Bash and cron jobs to reduce manual work.*

● *Set up and configured Apache/Nginx web servers, including SSL certificate installation.*

● *Check server performance using top, ps, traceroute, ping, h-top, d-mesg & logs.*

● *Performed regular backups using rsync, scp, tar, zip and cron for automation.*

● *Implementation of SSH key based authentication, firewall rules, and file permissions.*

● *Managed software installations and updates using yum, apt, dnf & rpm.*

● *Hardware & OS level health check.*

● *Generate sos report*

● *preparing report for the Physical health check Data Center.*

● *involving part replacement activity and gate pass preparing for the hardware parts.*

● *Support in ESXI host patching activity & VMs migration.*

● *Managed AWS services such as EC2, security groups, Billing & cost, load balancer, IAM user, roles, policies, sns & CloudWatch for secure and efficient cloud operations.*

● *Implement MFA for enhanced security while AWS console login.*

● *Automated infrastructure provisioning using AWS Cloud Formation.*

Credit Vidya (CRED) – Hyderabad
27 Jan 2022 – 10 July 2025

● *Managed installation, configuration and maintenance of Linux servers.*

● *Monitor CPU, RAM, Memory, Connectivity, server Health check etc.*

● *User Management, permissions, ownership, Disk Management.*

● *Integrate server with Nagios to track server performance and resource utilization. Like CPU, memory, load, http, ping, Total process, SSL, VPN (Firewall) & Disk.*

● *Escalate unresolved critical issues to L-2 & L3 level team.*

● *Maintain daily health check & shift handover reports. maintain incident tickets & take follow up to meet SLA.*

● *Monitor servers, network devices, routers, switches, and applications.*

● *Troubleshoot cpu, load, memory, ping, web server and system related issues. This may involve working on connectivity problems, server failures or application errors.*

Technical Skills:

● *Operating Systems: Linux (CentOS, Ubuntu, RHEL).*

● *Scripting Languages: Bash/Shell*

● *Package Management: rpm, yum, apt, dnf.*

● *Monitoring tool: Nagios.*

● *centralized log rotation: syslog, rsync, scp, tar, Cron jobs.*

● *Security: Firewall, SSH, Telnet.*

● *Web Servers & Version Control: Apache, nginx, Git.*

● *Ticketing & remote tool: Jira, putty, WinSCP.*

● *Managed AWS services: EC2, IAM, SG, Billing & Cost, Cloud Formation, SNS and MFA.*

● *Docker, Jenkins: basic level understanding.*

EDUCATION

● *Bachelor of Engineering in E&TC from Savitribai Phule Pune University - 2017*

● *Diploma in E&TC from Maharashtra state board of technical education – 2013*

HOBBIES - Playing Cricket & Badminton

LANGUAGES - English, Hindi & Marathi.

ADDRESS – At-Bharosa, Chandrapur Maharashtra.

Place – Hyderabad Kapildeo Patil
